

## FIELD & GAME FEDERATION of AUSTRALIA Inc.

### **Message from FITASC** **on the FITASC Website**

Dear Friend shooters,

The great success met by our online entry system since 2005 has led us to replace our web site by a new one. The new one will have improved traffic capacity, with easier access to information and to entries.

As from January 18th, 2010, you will be able to enter to championships on our new web site, at the same URL address: [www.fitasc.com](http://www.fitasc.com)  
I draw your attention on the way it works:

**The login and password used until 2009 are not valid any more.**

**You have to create a new shooter's card.**

**The new access codes will be made up of an email address and a password, chosen at your discretion:**

On the new site, you will click on the button « Entry / Championship » on the left, then in the menu « create your shooter's card » chose your language for the form of the shooter's card:

1. If you have a personal email address, please enter it and then chose your password.
2. If you do not have any personal email address, the site will generate an address like « [your\\_name@fitasc.com](mailto:your_name@fitasc.com) ». then chose a password.  
By creating a personal email address « [your\\_name@fitasc.com](mailto:your_name@fitasc.com) », you create a personal mailbox, available for consultation on the Fitasc web site.

After logged on, you will be able to check, from any computer and directly on the Fitasc web site, messages sent by Fitasc and including important information on championships. Please do not forget to log on frequently on our web site to check information !

Fitasc will send you, to the chosen email address :

- Information on calendars and championships;
- Dates of entry opening;
- your entry confirmations;
- Important information about championships, you have entered;
- Messages from our donors.

Do not forget to check your mailbox frequently !

Besides, we apologize in advance for the possible temporary malfunctions, inhere in any new system and likely to disorder your navigation on the new site. Please, if necessary, log on later on.

On behalf of the Fitasc Board members, I am happy to wish you a Happy New Year 2010 !

Jean-François PALINKAS  
FITASC - President
